SPACESAVER CORPORATION

FREE-STANDING PULL-OUT ART RACKS

Compact and sturdy modular storage

Spacesaver now offers Free-Standing Pull-Out Art Racks as an Engineered-To-Order option for galleries, museums, private collections, and other clients who want Spacesaver quality in a compact and sturdy modular art rack system.

Our Free-Standing Pull-Out Art Racks can be installed without permanently affixing them to ceilings, walls, or floors. Even the rails rest on the floor, which means that the entire rack structure, including the rails, can be relocated with minimal effort.

These modular art racks are made to client specifications. When increased storage capacity is required, clients can add additional modules to accommodate growing collections.

As with all Spacesaver products, our Modular Pull-Out Art Racks are made with heavy-duty steel and are engineered and manufactured with pride in Wisconsin, USA. Contact your local authorized Spacesaver representative for a free space assessment and unparalleled customer service.
